

### Parts List

Ref #	Qty	Part #	Description
1	1	20924	SEHP Pin Lock (2 keys included)
2	1	20928	Bracket - SEHP Lock

Protect your valuable MINUTE MOUNT<sup>®</sup> Hydraulic Power Pak using the SEHP Pin Lock. The locking pin replaces the bottom 1" clevis pin on the power pak. The bracket prevents removal of bottom lug from the unit. This kit will deter theft of your Hydraulic Power Pak. However, no system is 100% effective against theft.

### Installation

1. Place bracket (2) over ears on headgear as shown. Place hydraulic unit in so that all holes line up.
2. Insert Pin Lock (1) and lock it by turning key approximately four revolutions, or until it will no longer turn.
